**Date:** April 03, 2023

**Issue:** The affected vehicles may have been built with door handles that do not meet the factory specifications for protection against water ingress. Water ingress at the printed circuit board assembly of the door handle may cause a situation where a vehicle door could open unexpectedly when the vehicle is subject to high lateral forces at speeds below 9 mph/15 kmh. An open door on a moving vehicle puts occupants at risk of injury, and cause damage to objects and people who may be outside of the vehicle.

**Precautions:** If the recall condition is present in the vehicle, occupants may notice an audible clicking noise (similar to the sound of a vehicle door being locked/unlocked). Should this occur, customers are advised to contact an authorized Volkswagen dealer without delay to have the vehicle inspected.

- Repair:**
- REPAIR NOT YET AVAILABLE
  - Check daily campaign open inventory report or OMD for affected vehicles in inventory
  - Volkswagen is working to make a recall remedy available as soon as possible for the affected vehicles. Dealers and owners will be notified in writing once the recall remedy work can be performed.
